EDUCATION

G H Raisoni Skill Tech University, Nagpur Aug 2026 – Present
Master of Technology (CSE)

S.B Jain Institute of Technology, Management & Research Jan 2021 – May 2025
Bachelor of Technology (CSE)
CGPA- 8.73

HSC-93.33% (Bhalerao Science College)
SSC-85.60% (Saraswat Public School)

PROFESSIONAL SYNOPSIS

- Strong knowledge of Data Analysis, Data Preprocessing, Data Cleaning, and EDA using Python (Pandas, NumPy, Matplotlib, Seaborn) and practical experience with SQL/MySQL for CRUD operations.
- Skilled in Data Visualization using Power BI and Tableau to create interactive dashboards and reports.
- Proficient in Core Java, Python, and OOP concepts (Inheritance, Polymorphism, Abstraction, Encapsulation), with hands-on experience in Machine Learning (Regression, Classification, Clustering) using Scikit-learn.
- Familiar with development tools and IDEs (VS Code) and Version Control Systems (Git/GitHub) for collaborative coding and project management.

EXPERIENCE

1. Raisoni Education Group Dec 2025 – Current
Data Analyst Nagpur, India

HR DATA ANALYSIS & DASHBOARD MANAGEMENT

- Worked as a Data Analyst at Raisoni Education Group through Purple Squirrel Eduventures, where responsibilities included analyzing organizational and employee-related data to support business operations and management decision-making. Developed interactive dashboards and analytical reports using Power BI to monitor employee performance, attendance, recruitment activities, and other operational metrics, helping management gain actionable business insights. Along with data analytics responsibilities, also assisted the HR team in handling employee data management and operational coordination activities.
- **Role Roles and Responsibility:**
  - Developed interactive Power BI dashboards and analytical reports to monitor employee performance, attendance, recruitment, and organizational KPIs, enabling data-driven decision-making.
  - Performed data extraction, cleaning, preprocessing, validation, and analysis using SQL, Advanced Excel, and Google Sheets to maintain accurate and reliable datasets for business reporting.
  - Collaborated with management and HR teams to understand reporting requirements, automate reports, generate actionable insights, and improve operational efficiency through data-driven solutions.
  - Managed HR operational activities, including employee data management, documentation, record maintenance, and cross-functional coordination while ensuring data accuracy and supporting business operations.

2. SS Infotech Pvt. Ltd. Dec 2024 – May 2025

Data Analyst Nagpur, India

PROJECT: EMPLOYEE PERFORMANCE ANALYSIS

- Conducted exploratory data analysis (EDA) on employee performance data using Python libraries such as Pandas, Matplotlib, and Seaborn, identifying trends, patterns, and key performance indicators to support decision-making.
- Performed data preprocessing and feature engineering to prepare datasets for modeling, ensuring data quality, consistency, and suitability for predictive analysis.
- Built, trained, and evaluated machine learning models including Support Vector Machine (SVM), Random Forest, and Artificial Neural Networks (ANN) to classify employees into performance levels, optimizing model accuracy and reliability.
- Developed an interactive Power BI dashboard to visualize performance metrics, trends, and predictions, enabling stakeholders to monitor employee performance and make informed, data-driven decisions.

3. LGPS Hybrid Energy Pvt. Ltd. June 2024 – July 2024

Data Science Intern Nagpur, India

PROJECT: DISEASE OUTBREAK PREDICTION

- Developed machine learning models using Logistic Regression and Random Forest to predict potential disease outbreaks, leveraging historical health datasets to identify patterns and risk factors.
- Performed data preprocessing, feature selection, and exploratory data analysis (EDA) to clean, structure, and transform data, improving model accuracy and ensuring reliable predictions.
- Designed and implemented an interactive web interface to visualize prediction trends, outbreak probabilities, and insights, enabling stakeholders to monitor health risks and make informed decisions

PROJECTS

Mental Health Care App

- Designed and developed the frontend interface of SoulEase, a mental health care app focused on promoting emotional well-being and self-care. It is a mental health care app offering mood tracking, meditation, relaxation exercises, and community support. Built using Flutter, the app provides a user-friendly, responsive interface to help users manage their mental well-being and promote emotional resilience.

TECHNICAL SKILLS

- Programming Languages: Python, Java, R
- Databases: SQL, MySQL
- Data Analysis & Visualization Tools: Power BI, Tableau, Advanced Excel
- Machine Learning, Artificial Intelligence
- Web Technologies: Web Development, WordPress
- Development Tools & IDEs: VS Code

SOFT SKILLS

- Communication Skills
- Teamwork & Collaboration
- Time Management
- Public Speaking & Presentation Skills

CERTIFICATES

- Introduction to Data Analytics | Simplilearn
- AR/VR Development | IIT Mandi iHub & HCi Foundation
